

To the office workers,

By no means should this be considered a threat, but your boss, Tom, is putting you in danger.

You see, anyone that isn't a fool knows that at best you're a shield, and at worst, you're a sacrificial lamb for his goals.

Again, in no way is this a threat, but you have to understand that when things get really bad, people are going to stop calling and writing.

They're going to start coming in, and they're going to be coming in filled with rage that you're boss took the food out of their kid's mouths, or that he destroyed the ACA and now their loved one can't get chemotherapy anymore.

And you signed up to be his shield.

Resign, please resign, or find a Groupon for self defense classes because America's transition to oligarchy is going to be a wild ride for us peons.

And it should be obvious that Tom doesn't give a fuck about you.
